## Explanation of abbreviations and symbols:

|               |  |
|---------------|--|
| <i>italic</i> | Information provided by client   |
| OM            | Result based on Original Matter (sample as received)   |
| DM            | Result based on Dry Matter, in the test notes the DM percentage is specified. E.g.: DM88 means based on 88 % Dry Matter. |
| B             | BRC  |
| L             | GMP  |
| V             | Vernof   |
| #             | Result does not comply with specification (Spec.)  |
| BLOD          | Below Level Of Detection   |
| BLOQ          | Below Level Of Quantitation  |
| WLOQ          | Within Levels Of Quantitation  |
| ALOQ          | Above Level Of Quantitation  |
| ALOD          | Above Level Of Detection   |
